linkedin.com/in/wael-fezari - github.com/wauul - wael-fezari.vercel.app

Full-stack developer specializing in AI, with two years of apprenticeship experience at ROKI followed by two years of freelance work. Experienced in Azure RAG chatbots, Microsoft integrations and business-focused JavaScript components. I build complete AI applications, from the interface to backend services.

TECHNICAL SKILLS

Development: Python, FastAPI, Flask, JavaScript, TypeScript, React, Next.js, Node.js.

Applied AI: Azure OpenAI, Azure AI Search, RAG, chatbots, LLM integration.

Cloud & data: Azure, GCP, AWS, Docker, SQL, PostgreSQL, Git, GitLab.

Integrations: REST APIs, JSON, XML, SAML SSO, Microsoft Entra ID, Bubble.io.

PROFESSIONAL EXPERIENCE

Full-stack developer & AI integrations

Freelance - 2024 to present

- Built a native JavaScript Bubble.io planning plugin for architecture teams, with a timeline, draggable and resizable tasks, completion tracking and PDF export.
- Integrated Lucca to retrieve leave and submit reported time when a task is marked done, while accounting for public holidays, weekends and absences.
- Delivered a Microsoft integration with SAML SSO, Outlook, Word, Excel and PowerPoint connectivity, plus AI features through Microsoft OpenAI services.
- Built a Bubble.io business application for inventory, order and delivery management.

Full-stack developer

ROKI - Marseille - Apprenticeship - September 2022 to August 2024

- Developed an enterprise chatbot using Azure OpenAI and Azure AI Search for document retrieval and contextual RAG answers, with Bubble.io and Docker.
- Developed a Python/Flask job-posting distribution module using Azure and XML/JSON exchanges.
- Contributed to a waste-management application using Node.js, JavaScript, PostgreSQL, AWS and Bubble.io.

Independent developer

Fiverr - 2016 to 2021

Web applications with React and Angular, mobile applications with Flutter, and Java desktop software; Next.js portfolio.

EDUCATION

MSc Pro, Epitech - Marseille - 2022 to 2024

Web, mobile and desktop development, specializing in AI - Master's-level qualification, RNCP level 7.

Master's in Information Systems & Decision Support - 2016 to 2021

Badji Mokhtar University, Annaba. Thesis project: a recommendation system applied to student mental health.

LANGUAGES

French and English fluent - **Arabic** native language
